The Cargo Pak websites use cookies and similar technologies to ensure the proper functioning of the procedures and improve the experience of using online applications. This document provides detailed information about the use of cookies and similar technologies and about the way they are used by Cargo Pak as well as the procedure to manage them.

Definitions:

Cookies are short text fragments (letters and / or numbers) that allow the web server to store information about the client (the browser) to be reused during the same visit to the site (session cookies) or later, even days later (persistent cookies). Cookies are stored, based on the user's preferences, by the individual browser on the specific device used (computer, tablet, smartphone). Similar technologies, such as, for example, web beacons, transparent GIFs and all forms of local storage introduced with HTML5, can be used to gather information about the user's behavior and the one of the services. In the rest of this document we will refer to cookies and all similar technologies simply using the word "cookie".
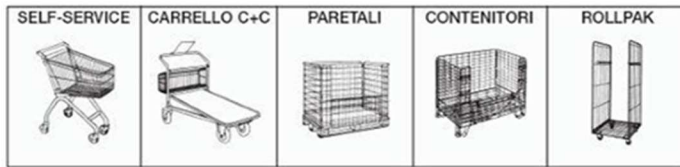

Types of cookies:

Based on the characteristics and use of cookies, we can distinguish different categories:

- **Strictly necessary cookies**. These cookies are essential for the correct functioning of the Cargo Pak sites and are used to manage login and access to the site's reserved functions. The duration of the cookies is strictly limited to the work session (when the browser is closed, they are deleted. Their deactivation could compromise the use of the services accessible by login. The public part of the Cargo Pak sites normally remains usable.
- **Analysis and performance cookies**. These cookies are used to collect and analyze traffic and use of the site anonymously, but without identifying the user, they allow, for example, to detect if the same user is connected several times. monitor the system and improve its performance and usability. The deactivation of these cookies can be performed without any loss of functionality.
- **Profiling cookies**: these are permanent cookies used to identify (anonymously and not) the preferences of the user and improve his browsing experience.

Third-party cookies:

Visiting a website, you may receive cookies both from the visited site ("owners") and from websites managed by other organizations ("third parties"). A notable example is the presence of "social plugins" such as Facebook, Twitter, Google+ and LinkedIn. These are parts of the visited page generated directly by the aforementioned sites and integrated into the page of the host site. The most common use of the social plugins is aimed at sharing content on social networks. The presence of these plugins involves the transmission of cookies to and from all sites managed by third parties. The management of the information collected by "third parties" is governed by the relevant information to which reference should be made. To ensure greater transparency and convenience, the web addresses of the various information and cookie management methods are given below.
Facebook information: https://www.facebook.com/help/cookies/ Facebook (configuration): access your account. Privacy section.

Twitter information: https://support.twitter.com/articles/20170514
Twitter (configuration): https://twitter.com/settings/security
LinkedIn information: https://www.linkedin.com/legal/cookie-policy

Google+ (configuration): https://policies.google.com/technologies/managing?hl=it

Google Analytics:

 Cargo Pak sites also include certain components transmitted by Google Analytics, a web traffic analysis service provided by Google, Inc. ("Google"). Also, in this case they are third-party cookies collected and managed anonymously to monitor and improve the performance of the host site (performance cookies).

Google Analytics uses "cookies" to collect and analyze anonymous information on the behavior use of the Cargo Pak websites (including the user's IP address). This information is collected by Google Analytics, which processes it in order to prepare reports for Cargo Pak operators regarding the activities on the websites themselves. This site does not use (and does not allow third parties to use) the Google analysis tool to monitor or collect personal identification information. Google does not associate your IP address with any other data held by Google or attempt to link an IP address with the identity of a user. Google may also communicate this information to third parties where required by law or where such third parties process the information on Google's behalf.

For more information, please refer to the following link:

https://www.google.it/policies/privacy/partners/

The user can selectively disable the action of Google Analytics by installing the opt-in component on his browser -out provided by Google. To disable the action of Google Analytics, please refer to the following link:

 https://tools.google.com/dlpage/gaoptout
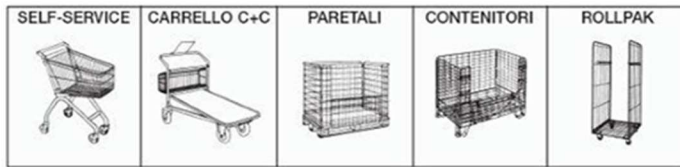

Duration of cookies:

 Some cookies (session cookies) remain active only until the browser is closed or the logout command is executed. Other cookies "survive" when the browser is closed and are also available for subsequent visits of the user. These cookies are called persistent and their duration is set by the server at the time of their creation. In some cases, a deadline is set, in other cases the duration is unlimited. However, by browsing the pages of Cargo Pak websites, you can interact with sites operated by third parties that can create or modify permanent and profiling cookies.

Management of cookies:

The user can decide whether to accept cookies using the settings on his or her browser.

Attention: the total or partial disabling of technical cookies can compromise the use of the site features reserved for registered users. On the contrary, the usability of public contents is possible by completely disabling the cookies.

Disabling "third party" cookies does not affect the browsing in any way.

The setting can be defined specifically for different websites and web applications. Furthermore, the best browsers allow you to define different settings for "proprietary" and "third-party" cookies.

For example, on Firefox, through the menu Tools-> Options -> Privacy
 you can access a control panel where you can define whether to accept the different types of cookies and proceed with their removal.
